

Ovid

a Wolters Kluwer business

- ▶ یکی از اولین پایگاه‌های تجاری دنیا در امر گسترش سریع تکنولوژی اطلاعات IT است. در سال ۲۰۰۱ با شرکت Silver Platter ادغام شد و موجب یکی شدن منابع، دو نام برجسته دنیا در زمینه پزشکی و تحقیقاتی علمی شد. این پایگاه یک پیشرو شناخته شده در حل نیازهای اطلاعاتی الکترونیکی در زمینه‌های علوم زیستی، بهداشت و پزشکی است.
- ▶ Ovid با استفاده از موتور جستجوی قوی خود، جستجو، تحقیق و دسترسی به محتوای ۱۳۰۰ ژورنال و بیش از ۴۵۰۰ کتاب را از حدود ۱۰۰ بانک اطلاعاتی امکان پذیر ساخته است.

انواع مدل‌های جستجو در Ovid

# Basic Search

(جستجوی ساده)

## Basic Search

این قسمت فقط جستجو در عنوان و چکیده را دارا می باشد.

The screenshot shows the Ovid Basic Search interface. At the top, the Ovid logo and Wolters Kluwer branding are visible. A navigation bar includes 'Search', 'Journals', 'Books', 'Multimedia', 'My Workspace', and 'Primal Pictures'. Below this, the 'Basic Search' section is active, showing '1 Resource selected' and 'EBM Reviews - Cochrane Central Register of Co'. A search input field is present with a 'Search' button. Below the search field, there are checkboxes for 'Include Multimedia' and 'Include Related Terms', both of which are checked. A 'Limits' section is expanded, showing various filters such as 'Medline Records', 'Embase Records', 'Abstracts', 'Full Text', 'Latest Update', and 'English Language'. There are also buttons for 'Additional Limits' and 'Edit Limits'. A 'Search History' section is visible below the limits, showing '0 searches'. A 'View Saved' button is also present. A table with columns 'Results', 'Search Type', and 'Actions' is partially visible at the bottom right, with a 'Save Search History' button below it.

View Abstract

AB OBJECTIVE: To determine whether **traditional** bone-setting or continuous light exercise therapy could ease back pain and improve function better than ordinary physiotherapy., DESIGN: Observer-blinded, randomized clinical trial with a 6-month follow-up., SETTING: An outpatient institution for **folk medicine** research., PATIENTS: Of 147 back pain patients recruited from local health centers and by newspaper announcements, 132 were found eligible (non-retired-no contraindications to manipulation) and entered. A final 114 (one dropout) with back pain for longer than 7 weeks were included in this intent to treat analysis., INTERVENTIONS: Bone-setting, guidance for continuous light back movements or physiotherapy for up to ten 1-hour sessions during 6 weeks., MAIN OUTCOME MEASURES: Spinal mobility and muscular performance. Back pain assessed by visual analog scales (VAS)., RESULTS: The physical measures changed only modestly, from one tenth to half of standard deviation, while the VAS was halved. The thoracolumbar side-bending, the modified Schober, and the VAS were significantly better improved by bone-setting than by exercise but not better than by physiotherapy., CONCLUSION: Neither bone-setting nor exercise differed significantly from physiotherapy, but bone-setting improved lateral and forward bending of the spine and back pain more than did exercise.

این علامت این امکان را می‌دهد که یک یا چند فیلد مورد نظر خود را از بین فیلدهای موجود انتخاب کرده و به بخش **My Field** انتقال دهید. همچنین برای حذف آن به قسمت **My Field** رفته و علامت حذف را می‌زنیم.

## مثال: جستجوی کل مقالات دانشگاه علوم پزشکی شهید بهشتی در OVID

The screenshot displays the OVID search interface. At the top, the OVID logo is on the left, and navigation links for 'My Account', 'My PayPerView', and 'Support &' are on the right. A blue navigation bar contains 'Search', 'Journals', 'Books', 'Multimedia', 'My Workspace', and 'Primal Pictures'. Below this, a secondary navigation bar includes 'Basic Search', 'Find Citation', 'Search Tools', 'Search Fields', 'Advanced Search', and 'Multi-Field Search'. The 'Search Fields' tab is active, and a search box contains 'Shahid Beheshti Medical University'. A 'Search' button is to the right. Below the search box, there are tabs for 'My Fields', 'All Fields', and 'Clear Selected'. Under 'All Fields', several search criteria are listed with checkboxes. The 'in: Institution Objective' checkbox is checked and highlighted with a green box. At the bottom, a 'Search History' panel shows a table with one search entry.

# Advanced Search

(جستجوی پیشرفته)

## جستجوی پیشرفته

The image shows a screenshot of the Ovid Advanced Search interface. The interface includes a search bar, navigation tabs, and a detailed filter section. Persian annotations are overlaid on the interface to explain various components:

- جستجو بر اساس نام نویسنده** (Search by author name): Points to the Author search field.
- جستجو بر اساس عنوان** (Search by title): Points to the Title search field.
- جستجو بر اساس کتاب** (Search by book name): Points to the Book Name search field.
- جستجو بر اساس کلیدواژه** (Search by keyword): Points to the Keyword search field.
- جستجو بر اساس نام ژورنال** (Search by journal name): Points to the Journal search field.
- تنظیمات محدودکننده ها** (Limiting settings): Points to the Limits section, which contains various filters like Abstracts, Full Text, and Age Groups.

The interface also features a search bar with a "Search" button, a "Limits" section with various checkboxes, and several dropdown menus for "Publication Year", "Age Groups", "Book Subsets", "Journal Subsets", and "Languages".

# **Multi-field Search**

## Multi-field Search

این قسمت دارای چندین باکس جستجو می باشد و امکان جستجو با عملگرها را فراهم نموده است.

The screenshot shows a search interface with a blue navigation bar at the top containing 'Search', 'Journals', 'Books', 'Multimedia', 'My Workspace', and 'Primal Pictures'. Below this is a secondary navigation bar with 'Basic Search', 'Find Citation', 'Search Tools', 'Search Fields', 'Advanced Search', and 'Multi-Field Search' (highlighted with a green box). The main content area shows '13 Resources selected' with links for 'Show' and 'Change'. There are three search input boxes, each with a dropdown menu set to 'All Fields'. A dropdown menu is open for the third box, listing various search fields such as 'ATC Code', 'Abstract', 'Accession Number', 'Author', 'Author Last Name', 'Author Name ID', 'Author's Objective', 'Authors Full Name', 'Authors Response', 'Book Editor', 'Book-Subset', 'Book Title', 'Book Title Word', 'Byline Text', 'CAS Registry Number', and 'CAS Registry UI'. A 'Search' button is located to the right of the input boxes. On the left, there are three green callout boxes with Persian text: 'استفاده از عملگرها' (Use of operators) pointing to the 'AND/OR/NOT' dropdown; 'تنظیمات محدودکننده ها' (Limiting settings) pointing to the 'Limits' section; and 'افزودن باکس جستجو' (Add search box) pointing to the '+ Add New Row' button. The 'Limits' section includes checkboxes for 'Abstracts', 'Articles with References', 'Diagnosis', 'English Language', 'Full Systematic Reviews', 'Medline Records', 'Prognosis', 'Therapeutics', 'Articles with Abstracts', 'Core Clinical Journals (AIM)', 'EBM Trends', 'Etiology', 'Full Text', 'New Reviews', 'Protocols', and 'Humans'. There are also 'Publication Year' and 'Age Groups' dropdowns, and 'Book Subsets' for 'Alternative & Complementary Medicine', 'Arts & Humanities', 'Behavioral & Social Sciences', 'Clinical Medicine', and 'Health Professions'.

**Journal Description**  
A Case Reports is a clinical companion journal to the International Anesthesia Research Society's flagship publication, *Anesthesia & Analgesia*. A Case Reports is designed to be the specialty's indispensable resource for peer-reviewed case reports that make an important teaching point or scientific observation in disciplines related to anesthesiology: perioperative medicine, critical care, and pain management.

The screenshot shows the Ovid Journals website interface. At the top, the Ovid logo is on the left, and navigation links for 'My Account', 'My PayPerView', 'Support & Training', 'Help', and 'Logoff' are on the right. Below the logo is a search bar with tabs for 'Search', 'Journals', 'Books', and 'More'. The 'Journals' tab is selected. Below the search bar are input fields for 'Title', 'Year', 'Volume', 'Issue', and 'Page', along with a 'Search' button and a 'Keyword Search' link. A dropdown menu is open over the 'Issue' field, showing options: 'This Issue', 'All Issues', and 'This Issue' (highlighted). Below the search bar, the breadcrumb 'Journals A-Z > Anti-Cancer Drugs' is visible. On the left side, there is a sidebar with 'Journal Information' and 'Journal Issue List'. The 'Journal Information' section shows details for 'Anti-Cancer Drugs' (1990-2015), including the publisher 'Lippincott Williams & Wilkins, Inc.' and ISSN '0959-4973'. The 'Journal Issue List' shows a list of issues for 2015, with 'Volume 26 (5)' selected. The main content area displays the selected issue details: 'Anti-Cancer Drugs', ISSN: 0959-4973, Copyright (C) 2015 Wolters Kluwer Health, Inc., and 'Issue: Volume 26(5) pgs. 475-581 June 2015'. Below this, there is a 'Select Range' input field and a row of action buttons: 'Print', 'Email', 'Export', 'Add to My Projects', and 'Keep Selected'. A 'Clear Selected | Select Page | Show Abstracts' bar is also present. The main article list shows a checkbox next to the article title 'Silymarin and hepatocellular carcinoma: a systematic, comprehensive, and critical review.' with page numbers 'pg. 475-486' and DOI '10.1097/CAD.0000000000000211'. Below the article title, the authors are listed: 'Mastron, Jeanetta K. a; Siveen, Kodappully S. c,d; Sethi, Gautam c; Bishayee, Anupam b'. A 'View Abstract' link is at the bottom. On the right side, there are links for 'RSS', 'Email', and 'Email Jumpstart'. At the bottom right, there is a list of options: 'Ovid Full Text', 'Abstract Reference', 'Complete Reference', and 'Request Permissions'. The page is annotated with several green callout boxes containing Persian text.

## Silymarin and hepatocellular carcinoma: a systematic, comprehensive, and critical review

Jeanetta K. Mastron<sup>a</sup>, Kodappully S. Siveen<sup>c,d</sup>, Gautam Sethi<sup>c</sup> and Anupam Bishayee<sup>b</sup>

The blessed milk thistle (*Silybum marianum* L.), a flowering plant native to Mediterranean Europe, has been consumed and extensively used as a cure for various chronic liver ailments over several centuries. Milk thistle extract, known as silymarin, is a complex mixture of seven major flavonolignans and one flavonoid. The phytoconstituents of silymarin owe their therapeutic and hepatoprotective effects to their strong antioxidant and anti-inflammatory properties. Primary liver cancer, also known as hepatocellular carcinoma (HCC), occurs in a milieu of oxidative stress and inflammation. The etiology of HCC includes chronic infection with hepatitis B and C viruses, cirrhosis, and

mechanisms involved in the anti-liver-cancer effects of silymarin have been presented. The current status of clinical studies evaluating the potential of role of silymarin in liver cancer, especially that caused by hepatitis C virus, has also been examined. Potential challenges and future directions of research involved in the 'bench-to bedside' transition of silymarin phytoconstituents for the chemoprevention and treatment of HCC have also been discussed. *Anti-Cancer Drugs* 26:475-486 Copyright © 2015 Wolters Kluwer Health, Inc. The screenshot shows the Ovid website interface. At the top, the Ovid logo is on the left, and navigation tabs for Search, Journals, Books, Multimedia, My Workspace, and Primal Pictures are on the right. The 'Books' tab is highlighted with a green box. Below the navigation, there is a search bar and a filter menu. The filter menu has two tabs: 'Title' and 'Subject', with 'Subject' selected. A list of subjects is shown on the left, with 'Clinical Medicine' highlighted by a green box. To the right, a section titled 'Clinical Medicine' shows 323 books. Three books are listed with their covers, titles, authors, publishers, and ISBNs. Each book entry includes icons for 'Annotate', 'Buy Print', and 'My Projects'.

# تنظیمات My Project

The screenshot shows the Ovid My Project interface. At the top, there's a navigation bar with 'Search', 'Journals', 'Books', 'Multi', 'My Workspace', and 'Primal Pictures'. Below this is a search bar with 'Search terms entered' and a 'Search' button. A dropdown menu is open, showing options: 'New Project', 'New Folder', 'Create Citation', and 'Upload File'. The main area displays a table of projects. The first table, 'Manage Projects', has columns 'Name', 'Items', and 'Modified'. It shows one project: 'folk med.' with 1 item, modified on 2015-Apr-21. Below it is an 'Archived Projects' table with the same columns. At the bottom, there's a 'Trash' section with 'Deleted Items' and 'Deleted Folders', both dated 2015-Apr-21. A storage indicator shows '0.0 of 50MB Storage used'. On the right, there are options for 'Print', 'Email', 'Export', and 'Remove'. A sidebar on the right lists reference options: 'Abstract Reference', 'Complete Reference', 'Find Citing Articles', 'Document Delivery', and 'EBM Full Text'. A sample article snippet is visible: 'folk med. ( Edit | Delete )', '0 Folder(s) 1 Item(s)', 'Sort By:', '10 Per Page', and '1'. A 'Remove' button is highlighted with a red 'X'.

The screenshot shows the 'Interactive Hand - 2013 Edition' software interface. The main window displays a 3D anatomical model of a hand with muscles and nerves. The interface includes a top navigation bar with icons for 'Start', 'Home', 'Index', 'Contents', and '3D Views'. A central panel on the right contains text instructions for using the software, including sections for '3D VIEWS', 'ANATOMY', 'CONTENTS', and 'INDEX'. A bottom panel shows a '3D anatomy view list' with expandable categories like 'Elbow, forearm and hand', 'Forearm', 'Hand', 'Surface features', 'Bone regions', and 'Brachial plexus'. A left sidebar lists various anatomical structures such as 'A1 pulley', 'Abductor digiti minimi', and 'Abductor pollicis longus'. The interface also shows 'Layer 17 of 27' and 'Frame 1 of 36'.

The screenshot shows an anatomy software interface with a 3D model of the elbow joint on the left and a text panel on the right. The 3D model is labeled "Elbow" and shows the "Capsule of the elbow joint". The text panel is titled "Tendinous sheath of flexor digitorum superficialis and profundus" and contains the following text:

Synovial sheaths are specialized tubular bursae that wrap around the extensor and flexor tendons of the wrist, hand, foot and ankle.

Bursae are closed sacs of synovial fluid surrounded by a synovial membrane. Their function is to facilitate the free movement of structures such as muscles, tendons, ligaments, fascia, bones and skin over each other, reducing the friction between the adjacent moving surfaces.

**Synovial sheath for flexor digitorum superficialis and profundus**  
The tendons of flexor digitorum superficialis and profundus are held to the phalanges by an aponeurotic sheath. Within this osseo-aponeurotic canal, a synovial sheath surrounds the tendons. The sheath of the fifth digit is usually continuous with the common sheath of the digital flexors.

The interface also includes a "3D anatomy view list" on the right side, which is expanded to show the "Elbow" section. A green callout box points to the "Elbow" section in the list, containing the text "مشاهده سایر قسمت‌های مربوط به دست".

The image displays a screenshot of an interactive anatomy software interface. The main window shows a full-body 3D skeleton model. On the left, there is a smaller window showing a close-up of a hand and wrist with muscles and tendons highlighted in green and red. On the right, there is a 'Getting Started' panel with text and a smaller window showing a close-up of a skull and neck with muscles and tendons highlighted in red and green. The interface includes a top navigation bar with 'Start', 'Anatomy', 'Movies', and 'Animations' tabs. The 'Movies' and 'Animations' tabs are highlighted with green boxes. The main window has a 'Full body' label and a 'Layer 1 of 15' indicator. The right panel has a '3D Views' section with a '3D anatomy view list' containing 'Full body' and 'Arteries and Nerves'. The bottom right of the main window shows 'Frame 1 of 36'. The bottom right of the skull/neck window shows 'Rotation 1 of 18' and 'Frame 1 of 50'.

The screenshot displays a 3D dental anatomy software interface. The main window shows a 3D model of a human skull with dental structures and associated vessels (red and blue) and nerves (yellow). The interface includes a top navigation bar with tabs for 'Anatomy', 'MRI', 'Slides', 'Movies', and 'Animations', and a 'Dentistry' tab. A search bar is located in the top right corner. The main content area is titled 'Dentition and paranasal sinuses ~ overview'. The bottom left corner indicates 'Layer 8 of 9' and 'Frame 1 of 36'. The right sidebar contains a 'Getting Started' section with a welcome message and a 'QUICK START GUIDE TO USING 3D Head & Neck Anatomy for Dentistry'. Below this is a '3D Views' section with a 'Structures' tab, and a '3D anatomy view list' containing a tree view of anatomical structures.

**Getting Started**

Welcome to *3D Head & Neck Anatomy for Dentistry*

For a comprehensive guide to all the tabs, tools, and icons, please go to the help section.

**QUICK START GUIDE TO USING 3D Head & Neck Anatomy for Dentistry**

**3D VIEWS**  
Click on the 3D Views tab to the right of the screen to display a list of all available 3D views. This tab is used to quickly navigate around the product.

**ANATOMY**  
The Layer control at the bottom of the screen adds/removes layers of anatomy by using the drop-down menu and the up/down arrows. The outer arrows rotate the 3D model by 9 frames in either direction; the inner arrows rotate the 3D model by one frame.

Click on any structure and related text appears to the right on the screen.

جهت آزمون و تمرین ها

# آزمون آناتومی

(با امکان تعیین تعداد سوالات، نحوه سوالات، سطح آزمون)

**3D Human Anatomy Quiz**

In this section you will be able to test your knowledge of anatomy. Here are some simple instructions and tips to get you going:

**Number of questions**  
You can choose how many questions are to be featured in your quiz. The minimum number of questions is five.

**Question type**  
There are two types of quiz questions: 'Where is' and 'What is'.

'Where is' questions will ask you to identify an anatomical structure in the 3D model. For example, if the question is 'Where is the femur?' you will need to find the femur in the 3D model and click on it.

'What is' questions will ask you to name the anatomical structure highlighted in the 3D model. You will be given a choice of five anatomical structures, of which only one is correct.

**Question difficulty**  
You will also have the choice to take easy or hard questions. Easy questions will test you on the basic functional anatomy of the chosen area, such as major muscles, ligaments and neurovascular supply. Difficult questions will test you on less obvious anatomical structures, such as divisions of musculature and detailed neurovascular supply.

**Choosing views**  
You can also choose which 3D view to be tested on. You have the option to set the quiz on all or a subset of views.

**Review**  
During the quiz, you may want to consolidate your knowledge of a particular area of anatomy. This is facilitated by clicking on the Review button, which will open up the relevant product title in a new tab or window. Please note that once you have clicked on the Review button, subsequent clicks will refresh the currently opened tab or window, which may be displayed behind the Quiz window.

For in-depth information on Quiz functionality and features, please click on the help file. *Good luck!*

**Number of questions**  
10

**Question type**  
 What is
